ACCESS HUNDREDS OF NEW SCIENTIFIC REFERENCES!

For many years now, I have been posting numerous scientific resources on this website, would they appear in my *Lectures, Articles, Abstracts, or Quotes* that always show or mention corresponding scientific references.

Today, I feel that we need to further inform both patients and colleagues about the fact that Functional Medicine is by essence scientifically based!

None of my tests and none of my treatments cannot be justified by one or several scientific articles published on PubMed by peer-reviewed journals!

However, I do understand that researching those references can show a bit difficult and certainly time-consuming. I have therefore decided to post hundreds of such scientific articles, either as full-texts or abstracts, most of the time highlighted according my focuses. They appear under a new tab entitled "**REFERENCES**" that has been added to the new website.

Indeed, I am besides planning to post educative videos, which will imply a more powerful website to keep a practical access and an effective speed. I hope that you will appreciate and why not enjoy my efforts to keep you up-to-date with the fast evolution of your medicine, Functional Medicine!
